HEATHROW SCAFFOLDING LTD

Company capability statement

Residential. Commercial. Industrial.

SCAFFOLDING & ACCESS SOLUTIONS

Access planned around your project.

Heathrow Scaffolding provides access solutions from enquiry and planning through erection, hire support and dismantling. Project scope and availability are agreed with your team.

Qualified people

CISRS and CSCS-qualified professionals are described in our company information. Team allocation is confirmed for each project.

Supervision & coordination

Project contacts, site supervision and coordination with other trades are agreed around your programme.

Access solutions

Access scaffolds, towers, temporary roofs and specialist scaffolding selected around the work and site conditions.

Design arrangements

Discuss bespoke design, drawings and any checking requirements during project planning.

Delivery & collection

Vehicle suitability, access restrictions, deliveries and dismantling are coordinated with the site team.

Coverage

London and surrounding counties, plus Blackpool and Lancashire. Coverage is confirmed for each enquiry.

EVIDENCE FOR YOUR PROJECT

Request current accreditation certificates, insurance evidence and project references. Workforce numbers, equipment quantities, policy limits and renewal dates are confirmed directly; no fixed capacity or response time is promised in this overview.
